FOREWORD

Selection of library books for use by deaf children is a difficult and continuing problem. Recent availability of special funds and a growing interest in libraries in schools for the have emphasized the need for an annotated list that might be helpful to those responsible for making book selections.

With the cooperation of Captioned Films' Southern Regional Media Center at the University of Tennessee an evaluation committee was set up. The committee was ably assisted by Mrs. Lois B. Watt, Chief, Educational Materials Center, U.S. Office of Education, and by Dr. William Jackson, Media Center Director, Knoxville. Members of the committee were:

Mrs. Caroline Burns, Librarian, California School for the Deaf,
  Berkeley, California
Miss Joan Smith, Resource Teacher, Alexander Graham Bell School
  for the Deaf, Chicago, Illinois
Mrs. Frances Tanenbaum, Librarian, Pennsylvania School for the Deaf,
  Philadelphia, Pennsylvania
Miss Goldie Trboyevich, Project Coordinator and Librarian, Kendall
  School for the Deaf, Washington, D. C.

Each committee member had ready access to an educational materials center and full complement of recent children's books. Selections were made on the basis of the following general criteria:

1. Selections are supplemental rather than basic.

2. Grade span is K-6 inclusive. Selections are designated as primary, intermediate or advanced, based on the evaluator's knowledge of the reading abilities of deaf children. Strict delineation is not implied. In a few instances books are above the indicated top level of difficulty.

3. Selections include books published between 1960 and 1966. Prices indicated are taken from the 1966 edition of Books in Print and are subject to change.

All books were given suggested Dewey classification numbers and/or marked E (easy) or F (fiction).

The committee extends sincere appreciation to Mrs. Watt and to the Southern Regional Media Center staff for their excellent help in providing this report.
